NEW PLYMOUTH, SATURDAY, MAY 8, 1858.

[No. 8

REPORT of a Select Committee of the Provincial Council of New Plymouth, appointed March 17, 1858, to inquire into our relations with the Natives generally respecting the Native disturbances, and all other matters relating thereto, together with minutes of the evidence taken by such Committee, and the documents laid before the same.

produce his instructions for the information of this Council, the Committee have obtained a copy of those issued to the Assistant Native Secretary, wherein he is directed to "take every opportunity of explaining to the Natives the object of the Proclamation issued by His Excellency on the 12th instant (February) cautioning them against entering the district of New Plymouth (as defined in the Schedule attached to the said Proclamation) in armed parties."

The Committee have examined the following witnesses—Messrs Hulke and Sunley, Members of the Provincial Council, Mr Morrison, the Assistant Native Secretary, the District Land Purchase Commissioner, W. M. Crompton, Esq., H. R. Richmond, Esq., Justices of the Peace, and the Native Assessor Poharama. The Committee likewise summoned the Resident Magistrate to give evidence, but that officer, as will be seen from his examination, refused to afford, with one trivial exception, any replies in the way of information to the questions put to him, on the plea that this Council had no authority to enquire into other matters than those touching the Public service of the Province, and that the matter under enquiry was Public service of the Colony.

The Committee would draw the attention of the Council to the words "entering the district in armed parties," from which it appears to them that the object of the proclamation is clearly set forth.

The Committee do not propose now enquiring into the validity of this objection which has compelled them to rely upon evidence obtained from other sources for information which they might otherwise have obtained more directly.

The Committee believe such to be the intention of the General Government, and they learn with satisfaction from the evidence of the Assistant Native Secretary and the District Land Purchase Commissioner that they believe the carrying out of this interpretation of the Proclamation is quite practicable.

It is with regret that the Committee have to report that, notwithstanding the measures taken by His Excellency the Governor for the protection of the settlement and the observance of its neutrality, the settlers are still exposed to the dangers arising from the presence of armed Natives.

It appears from the evidence before the Committee that the Resident Magistrate has on five different occasions declined to take judicial cognizance of informations preferred by settlers against Natives for infringements of the Proclamation, which were mostly accompanied by threatening language and intimidation, and that complaints of other infringements were not made as it was hopeless that they would be differently received.

Though the Resident Magistrate has declined to

The Resident Magistrate has likewise refused to receive an information upon oath from the Native Assessor Poharama who desired to make an example of some Town Natives including another Native Assessor for infringing the Proclamation. And at the conclusion of his examination Poharama stated that it was necessary to prevent trouble that any Native traversing the English land with arms should
